

The "ReAkta" Auto Retract Knife

Moulded In Tough Glass-Filled Nylon and Stainless Steel Blade

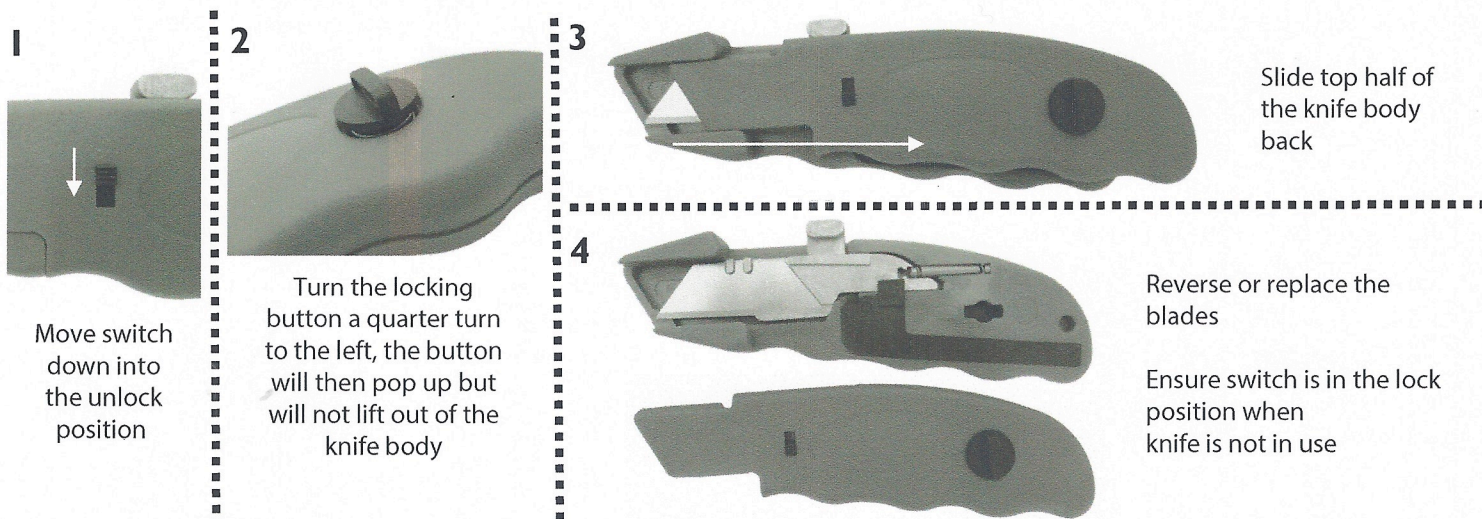

The ReAkta Knife is a utility knife with a novel new safety feature. Whereas an enclosed blade 'Safety Knife' almost eliminates the risk of an accident, the ReAkta Knife will give a risk reduction compared to a 'fixed blade' or 'manual retract' knife.

KEY FEATURES - AUTO RETRACT VERSION

- The blade will retract when you take your thumb or finger off the slider. Once you have pressure on the blade, you do not need to keep your thumb or finger on the slider
- The blade can be locked in the knife for safe storage
- Moulded in tough glass filled nylon
- Easy blade change and cleaning procedure
